1 Offshore Wind Growth Partnership

The Offshore Wind Growth Partnership (OWGP) is a long-term business transformation programme that has been established as part of the UK Offshore Wind Sector Deal. It will promote closer collaboration across the supply chain, implement structured productivity improvement programmes and facilitate shared growth opportunities between developers and the supply chain.

From 2019 until 2030, the OWGP will invest up to £100 million in projects and activities that provide direct support to companies seeking to enter into or grow their presence in the UK offshore wind supply chain. The programme will provide Grant Funding and Business Transformation programme opportunities to grow existing companies, drive greater collaboration, increase business competitiveness, champion innovation and attract new entrants.

The OWGP is a national programme that encourages companies from all sectors and locations to participate.

This Business Transformation opportunity focuses on supporting companies in the areas of Business Competitiveness and Building New Capacity.

2 Aim

In line with the overall OWGP objectives, the purpose of this business transformation opportunity is to help companies become more competitive by providing structured business improvement activities and also to encourage more UK businesses into the offshore wind supply chain by helping potential new market entrants to overcome barriers to diversification.

WEST is a short term intervention activity which aims to support growth of offshore wind supply chain companies through specialist advice, market intelligence and strategic business support.

WEST includes the assessment of a company's needs, provision of support, feedback and recommendations of next steps. WEST will be delivered by Expert Consultants and will provide a needs-focused approach to business support.

The WEST Programme will additionally provide OWGP with a greater understanding of the needs of the supply chain to better inform future intervention activities and business transformation offerings.

3 Target

This business transformation opportunity is targeted towards companies in the following categories:

- Companies with at least 1 year of available financial accounts uploaded to companies house, based in the UK who wish to work in the offshore wind sector.
- Established UK companies who work in other sectors (such as Aerospace, Oil & Gas, Nuclear, Defence or Automotive) who wish to transition into the offshore wind sector.
- UK companies already working in the offshore wind sector requiring more strategic input to enhance their future direction and growth opportunities.

5 Definitions

The following terms shall have the meaning as described in the Definitions shown below:

Term	Definition
Applicant	A UK-based company that makes an application to the OWGP for support.
Assessor	An OWGP appointed assessor that reviews the Applications.
Support Offer Letter	An agreement which will be signed between the successful Applicant and the OWGP. Under this agreement, the Applicant will agree to support the delivery of the needs focused activity against the Intervention Plan which is set out after the kick-off meeting. The OWGP will agree to make available to the Applicant an Expert Consultant to deliver against the Intervention Plan.
Needs List	The agreed set of specific needs and associated activities which will be delivered as part of the intervention.
Expert Consultant	A service provider who will be paired with successful Applicant(s) to provide specialist knowledge/expertise to the Applicant to meet needs agreed between OWGP, the Assessor and the Applicant.

6 Eligibility

To be supported through the WEST Programme, the Applicant must meet the following criteria:

- Be a UK-registered company of any size. (Please note, academic institutions and RTO's are not eligible for this opportunity)
- Have at least 1 year of financial history, as an operating UK-registered business, uploaded to companies' house.
- Show a clear intent to diversify their business into offshore wind or demonstrate existing capability in the sector.
- Can clearly articulate their desire to enter / grow their presence in the offshore wind market.
- Understand their own needs and deficiencies as a business and have a proactive attitude to business improvement and constructive feedback.
- Provide detailed information to an Expert Consultant and OWGP to allow support delivery.
- Demonstrate how the intervention would impact their business and the additionality it would provide by having identified needs met.
- Have not been awarded support from an OWGP business transformation programme launched in the last 12 months.

Applicants who receive support in this opportunity wave are expected to develop their company in the offshore wind sector based on the support received prior to receiving further funding or support from OWGP.

7 Scope

The aim of the WEST Programme is to support companies to become more competitive by providing structured business improvement activities and to encourage more UK businesses into the offshore wind supply chain by helping potential new market entrants to overcome barriers to diversification.

Companies are invited to submit an application for support against a range of possible needs to support their establishment and/or growth in the offshore wind sector.

Applicants will complete the application form on Submittable Platform, identifying their top three (3) company needs and provide further information about their company, products / services and ambition within the offshore wind sector.

During the delivery phase, a minimum of two (2) company needs will be addressed by the Expert Consultant and OWGP.

OWGP will monitor successful Applicants and track progress in line with key performance indicators for the programme (jobs, turnover, exports and IP in Offshore Wind). Intervention activities led by Expert Consultants will be delivered over a period to be agreed after the kick-off meeting.

Applicant companies should ensure they have suitable bandwidth and capability to support activities as a condition of application and should ensure they make their Expert Consultant aware of any holidays or business commitments which may affect their ability to align with proposed timelines.

Please note: The WEST Programme will operate a rolling application and start date process. See Section 10 for further details.

8 Submittable Platform Guidance

OWGP WEST applications forms are host on the Submittable Platform. The platform allows you to create a profile, save and return to your application, as well as invite colleagues to collaborate on the submission with you.

The application form for this opportunity is available from the OWGP website or by [clicking this link](#) and following the prompts.

Applicants will be able to complete and submit this form until the stated Application closing date and time.

Once your application is submitted, you will receive a confirmation email from Submittable. **Please safelist this address** with your email service provider in addition to Submittable notification emails to ensure that you receive all open call reminders, updates, and information, as well as answers to your inquiries. Please find a brief how-to [here](#).

Should you like more information on how to use Submittable, please follow the link to watch a video tutorial - <https://submittable.help/en/collections/185534-help-for-applicants>

9 Application Process

The WEST Programme has a one-stage application process. Applicants may submit their application on a rolling basis via the Submittable Platform. You can access through the OWGP website.

All communications regarding your application, including answers to submitted questions, will be sent via the Platform.

Please refer to Section 11 for further details on application wave closure and proposed kick-off timescales.

10 Evaluation

Applications will be reviewed by Assessors based on the information provided by Applicants.

Assessors will be asked to score the applications against the following criteria:

Criteria	Weighting	Guidance
Section 2 Company background and relevance to this opportunity	30%	An applicant must have clear intent to operate within the offshore wind supply chain and have some understanding of the possible challenge or opportunities within the sector they are hoping to address through their products or services.
Section 3 Understanding of their own needs and the impact of having these needs met	30%	An applicant must show a clear understanding of the challenges it is facing (needs) and the impact of addressing these needs in relation to their business and growth.
Section 4 Culture and approach to improvement	30%	An Applicant must demonstrate their companies' desire to embrace improvement opportunities, change and where possible provide examples.
Section 5 Alignment with OWGP KPIs	10%	An Applicant must demonstrate how they envisage the support provided by OWGP will align with the overall programme KPIs in supporting company growth in relation to turnover, jobs, export opportunities and IP. This must be realistic based on the Applicants current engagement in and knowledge of the sector.

Applicants are expected to respond fully to all sections of the application, and are advised to acknowledge the weighting of each section of the application in the responses provided.

In addition to the online application, OWGP will conduct a due diligence process on each application. Should your company's financial history not be available through public means (GOV.UK Companies House) the application will not be taken forward.

12 Delivery

12.1 Applicant Responsibilities

Successful Applicants will be required to:

- Provide an internal champion or Project Manager to own the relationship with the OWGP and Expert Consultant to manage the agreed communications and activities outlined by the Expert Consultant aligned to the needs of the Applicant.
- Commit internal resource to support the implementation plan to address specified needs, as agreed by the Applicant, OWGP and Expert Consultant.
- Report to the OWGP on results and major business milestones following engagement with the OWGP.
- Provide feedback to the OWGP Programme Team on the impact of the intervention against turnover, jobs, exports and IP at least annually for up to three (3) years after their support has ended.
- Be open to publicity about participation in the WEST Programme with the OWGP and where possible, participate in case studies to promote WEST and the impact of the intervention.

12.2 Provision of Support

Needs based support will be provided to successful Applicants through the Expert Consultant(s). OWGP will endeavour to meet a minimum of two (2) top needs of each successful applicant company through the WEST programme. Internal resource to support the implementation plan is required by the Applicant as above.

Applicants will receive a bespoke and individual company information pack detailing the needs highlighted, information relevant to addressing the agreed needs, the potential route forward and recommended next steps.

In some instances, the support provided may take the form of workshops, training or other collaborative activities if deemed necessary and appropriate to address the highlighted needs of the company.

OWGP may at its sole discretion, provide more support to the Applicant, if it is deemed that this will provide further measurable benefit in-line with the OWGP's Key Performance Indicators.

Applicants will not receive any payment from OWGP as part of WEST Programme – all support will be provided through the outputs of the Expert Consultant(s).

13 Confidential Information and Intellectual Property

The business information you provide in your online Application will be kept strictly confidential and will be used solely by the OWGP and Assessors for the purpose of this call.

It is the intention of the OWGP that a confidential and intellectually safe environment be created by the Call where Applicants will feel free to share their ideas and concepts without fear of plagiarism or impact on their secrecy. As a result, the OWGP will ensure that the Intellectual Property (IP) included in submissions to the Call and IP that will be developed during any subsequent phase is and will remain property of the provider, will be treated in confidence and exclusively for the purpose of assessing and evaluating the Call Application.

The OWGP may use your contact details to approach you about future activities and initiatives (programmes, projects, events, training opportunities, etc.).
